

**Elias Daher**  
**Owner, 24hr Wireless**

Elias Daher was born and raised in a small village in the south of Lebanon called Klayaa. The second youngest of nine children, he found inspiration in his mother, who raised the family as a single parent following the death of his father in 1986.

With determination to seek out greater opportunities, Elias arrived in the United States in 1994 to attend college. He graduated in 1999 with a degree in electrical engineering from Florida Atlantic University.

After graduation, Elias began his career as an engineer working for Siemens, and then opened a small business selling cellular phones. Four years and much success later, Elias founded 24hr Wireless, a wholesale electronics and cellular phones import/export business in Miami, Florida.

Elias remains very fond of Lebanon and is eager to reach out in any way he can to help. He currently lives in Miami with his wife and three children. His family takes great pride in their Lebanese heritage and in their Maronite faith.
